Author Index

Albrecht, S.L., *see* De Vries, J.D. et al.
Bennett, J.M., *see* De Vries, J.D. et al.
Bidinger, F.R., *see* Craufurd, P.Q. and Bidinger, F.R.
Blum, A.
Book review of *Corn and Corn Improvement*, by G.F. Sprague and J.W. Dudley (Editors) 161
Blum, A., Shpiler, L., Golan, G. and Mayer, J.
Yield stability and canopy temperature of wheat genotypes under drought-stress 289
Boote, K.J., *see* De Vries, J.D. et al.
Bouwkamp, J.C., *see* Bruns, H.A. and Bouwkamp, J.C.
Brummett, D.L., *see* Guinn, G. and Brummett, D.L.
Bruns, H.A. and Bouwkamp, J.C.
Nutrient concentration, content, and uptake by sweet potatoes grown in varying intra-row plant spacings 17
Cadisch, G., Sylvester-Bradley, R. and Nösberger, J.
^{15}N-based estimation of nitrogen fixation by eight tropical forage-legumes at two levels of P:K supply 181
Craufurd, P.Q. and Bidinger, F.R.
Potential and realized yield in pearl millet (*Pennisetum americanum*) as influenced by plant population density and life-cycle duration 211
De Vries, J.D., Bennet, J.M., Boote, K.J., Albrecht, S.L. and Maliro, C.E.
Nitrogen accumulation and partitioning by three grain legumes in response to soil water-deficits 33
deMooy, B.E. and deMooy, C.J.
Effects of leaf-harvesting practices on yield and yield components of ER-7 cowpea (*Vigna unguiculata*) in semi-arid Botswana 27
deMooy, C.J., *see* deMooy, B.E. and deMooy, C.J.
Edmeades, G.O., *see* Fischer, K.S. et al.
Fereres, E., *see* Gimeno, V. et al.
Fernandez-Martínez, J.M., *see* Gimeno, V. et al.
Fischer, K.S., Edmeades, G.O. and Johnson, E.C.
Selection for the improvement of maize yield under moisture-deficits 227
Foale, M.A., *see* Myers, R.J.K. et al.
Ghuman,B.S. and Lal, R.
Soil temperature effects of biomass burning in windows after clearing a tropical rainforest 1
Ghuman, B.S., *see also* Lal, R. and Ghuman, B.S.
Gimeno, V., Fernendez-Martínez, J.M. and Fereres, E.
Winter planting as a means of drought escape in sunflower 307
Golan, G., *see* Blum, A. et al.
Grantz, D.A.
Effect of cool temperatures on photosynthesis and stomatal conductance in field-grown sugarcane in Hawaii 143
Guinn, G. and Brummett, D.L.
Fruiting of cotton. IV. Nitrogen, abscisic acid, indole-3-acetic acid, and cutout 257
Hall, A.J., *see* Sadras, V.O. et al.
Harrington, R.
Book review of *Aphids: Their Biology, Natural Enemies and Control*, Vol. 2B, by A.K. Minks and P. Harrewijn (Editors) 157

Hewett, P.D.
Book review of *Rice Seed Health* 159
Hocking, P.J. and Steer, B.T.
Effects of seed size, cotyledon removal and nitrogen stress on growth and on yield components of oilseed sunflower 59
Hodgson, A.S., Holland, J.F., and Rayner, P.
Effects of field slope and duration of furrow irrigation on growth and yield of six grain-legumes on a waterlogging-prone vertisol 165
Holland, J.F., *see* Hodgson, A.S. et al.
Jefferies, R.A. and MacKerron, D.K.L.
Radiation interception and growth of irrigated and droughted potato (*Solanum tuberosum*) 101
Johnson, E.C., *see* Fischer, K.S. et al.
Keefer, G.D., *see* Myers, R.J.K. et al.
Koshkin, E.I. and Tararina, V.V.
Yield and source/sink relation of spring wheat cultivars 297
Laing, D.R., *see* White, J.W. and Laing, D.R.
Lal, R. and Ghuman, B.S.
Biomass burning in windrows after clearing a tropical rainforest: effects on soil properties, evaporation and crop yields 247
Lal, R., *see also* Ghuman, B.S. and Lal, R.
Liebman, M.
Effects of nitrogen fertilizer, irrigation, and crop genotype on canopy relations and yields of an intercrop/weed mixture 83
MacKerron, D.K.L., *see* Jefferies, R.A. and MacKerron, D.K.L.
Maliro, C.E., *see* De Vries, J.D. et al.
Mayer, J., *see* Blum, A. et al.
Mortlock, M.Y. and Vanderlip, R.L.
Germination and establishment of pearl millet and sorghum of different seed qualities under controlled high-temperature environments 195
Myers, R.J.K., Foale, M.A. and Keefer, G.D.
Growth and development of a range of grain-sorghum cultivars in three tropical and sub-tropical environments 267
Nösberger, J., *see* Cadisch, G. et al.
Rayner, P., *see* Hodgson, A.S. et al.
Sadras, V.O., Hall, A.J., Trapani, N. and Vilella, F.
Dynamics of rooting and root-length: leaf-area relationships as affected by plant population in sunflower crops 45
Saroop, S., *see* Thaker, V.S. et al.
Shpiler, L., *see* Blum, A. et al.
Singh, Y.D., *see* Thaker, V.S.et al.
Steer, B.T., *see* Hocking, P.J. and Steer, B.T.
Sylvester-Bradley, R., *see* Cadisch, G. et al.
Tararina, V.V., *see* Koshkin, E.I. and Tararina, V.V.
Thaker, V.S., Saroop, S., Vaishnav, P.P. and Singh, Y.D.
Genotypic variations and influence of diurnal temperature on cotton fibre development .. 129
Trapani, N., *see* Sadras, V.O. et al.
Vaishnav, P.P., *see* Thaker, V.S. et al.
Vanderlip, R.L., *see* Mortlock, M.Y. and Vanderlip, R.L.
Vilella, F., *see* Sadras, V.O. et al.
White, J.W. and Laing, D.R.
Photoperiod response of flowering in diverse genotypes of common bean (*Phaseolus vulgaris*) 113

Subject Index

Analytical techniques
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Aphids, *see* Pests, weeds and diseases
Arachis
Nitrogen accumulation and partitioning by legumes in response to water deficits 33
Barley, *see Hordeum*
Bean, *see Phaseolus*
see also Vigna
Brassica
Effects of nitrogen, irrigation, and genotype on canopy and yield of an intercrop/weed mixture 83
Burning, *see* Fire, effects of
Cajanus
Nitrogen accumulation and partitioning by legumes in response to water deficits 33
Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
Canopy dynamics
Effects of nitrogen, irrigation and genotype on canopy and yield of intercrop/weed mixture 83
Yield and canopy temperature of wheat under drought-stress 289
Centrosema
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Clearcutting, *see* Management practices, effects of
Cold stress, *see* Environmental conditions, effects of
Corn, *see Zea*
Cotton, *see Gossypium*
Cotyledon removal, *see* Management practices, effects of
Cowpea, *see Vigna unguiculata*
Desmodium
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Drought, *see* Water regime, effects of
Environmental conditions, effects of
Genotypic variation and influence of temperature on cotton 129
Effect of cool temperatures on photosynthesis and stomatal conductance in sugarcane 143
Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
Germination and establishment of millet and sorghum of different seed qualities under high-temperature environments 195
Growth and development of sorghum cultivars in tropical and sub-tropical environments 267
Evapotranspiration, influences on
Burning in a rainforest: effects on soil, evaporation and yields 247
Fire, effects of
Soil temperature effects of burning a rainforest 1
Burning in a rainforest: effects on soil, evaporation and yields 247
Fruiting, physiology
Fruiting of cotton. Nitrogen, abscisic acid, indole-3-acetic acid, and cutout 257
Genotype, *see* Variety trials
Glycine
Nitrogen accumulation and partitioning by legumes in response to water deficits 33

Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
Gossypium
Genotypic variation and influence of temperature on cotton 129
Fruiting of cotton. Nitrogen, abscisic acid, indole-3-acetic acid, and cutout 257
Groundnut, *see Arachis*
Growth substances
Fruiting of cotton. Nitrogen, abscisic acid, indole-3-acetic acid, and cutout 257
Heat stress, *see* Environmental conditions, effects of
Helianthus
Dynamics of root: leaf relationships affected by populations in sunflower 45
Effects of seed size, cotyledon removal and nitrogen stress on growth 59
Winter planting as a means of drought escape 307
Hordeum
Effects of nitrogen, irrigation and genotype on canopy and yield of an intercrop/weed mixture 83
Intercropping
Effects of nitrogen, irrigation and genotype on canopy and yield of an intercrop/weed mixture 85
Ipomoea
Nutrients in sweet potatoes in varying plant spacings 17
Irrigation, *see* Water regime, effects of
Leaf-harvesting, *see* Management practices, effects of
Legumes
Effects of leaf-harvesting on yield of *Vigna* 27
Nitrogen accumulation and partitioning by legumes in response to water deficits 33
Photoperiod response of flowering in *Phaseolus* genotypes 113
Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Life-cycle, duration
Yield in *Pennisetum* influenced by population density and life-cycle duration 211
Maize, see *Zea*
Management practices, effects of
Soil temperature effects of burning a rainforest 1
Nutrients in sweet potatoes in varying plant spacings 17
Effects of leaf-harvesting on yield of *Vigna* 27
Dynamics of root: leaf relationships affected by population in sunflower 45
Effects of seed size, cotyledon removal and nitrogen stress on growth of sunflower 59
Burning in a rainforest: effects on soil, evaporation and yields 247
Winter planting as a means of drought escape in sunflower 307
Millett, *see Pennisetum*
Nitrogen, *see* Nutrient dynamics
Nutrient dynamics
Nutrients in sweet potatoes in varying plant spacings 17
Nitrogen accumulation and partitioning by legumes in response to water deficits 33
Effects of seed size, cotyledon removal and nitrogen stress on growth of sunflower 59
Effects of nitrogen, irrigation and genotype on canopy and yield of intercrop/weed mixture 83
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Fruiting of cotton. Nitrogen, abscisic acid, indole-3-acetic acid, and cutout 257
Oryza
Rice Seed Health (Book review) 159

Pea, *see Pisum*
Peanut, *see Arachis*
Pennisetum
Germination and establishment of millet and sorghum of different seed qualities under high-temperature environments 195
Yield in *Pennisetum* influenced by population density and life-cycle duration 211
Pests, weeds and diseases
Aphids: Their Biology, Natural Enemies and Control, Vol. 2B (book review) 157
Phaseolus
Photoperiod response of flowering in common bean 113
Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
Photoperiod, effects of
Photoperiod response of flowering in *Phaseolus* 113
Pigeon pea, *see Cajanus*
Pisum
Effects of nitrogen, irrigation and genotype on canopy and yield of an intercrop/weed mixture 83
Plant density, *see* Population dynamics
Population dynamics
Dynamics of root: leaf relationships affected by population in sunflower 45
Yield in *Pennisetum* influenced by population density and life-cycle duration 211
Potato, *see Solanum*
Pueraria
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Radiation, interception and use
Radiation interception and growth of irrigated and droughted *Solanum* 101
Rainforest
Soil temperature effects of burning a rainforest 1
Burning in a rainforest: effects on soil, evaporation and yields 247
Rice, *see Oryza*
Root dynamics
Dynamics of root: leaf relationships affected by population in sunflower 45
Saccharum
Effect of cool temperatures on photosynthesis and stomatal conductance in sugarcane 143
Seed characteristics
Effects of seed size, cotyledon, removal and nitrogen stress on growth of sunflower 59
Rice Seed Health (book review) 159
Germination and establishment of millet and sorghum of different seed qualities under high-temperature environments 195
Slope, *see* Environmental conditions, effects of
Soil conditions
Soil temperature effects of burning a rainforest 1
Burning in a rainforest: effects on soil, evaporation and yields 247
Solanum
Radiation interception and growth of irrigated and droughted potato 101
Sorghum
Germination and establishment of millet and sorghum of different seed qualities under high-temperature environments 195
Growth and development of sorghum cultivars in tropical and sub-tropical environments 267
Source/sink relations
Yield and source/sink relation of spring wheat 297

Soybean, *see Glycine*
Spatial arrangement, *see* Management practices, effects of
Stomatal conductance
Effects of cool temperatures on photosynthesis and stomatal conductance in sugarcane .. 143
Stylosanthes
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
Sugarcane, *see Saccarum*
Sunflower, *see Helianthus*
Sweet potato, *see Ipomoea*
Temperature, *see* Environmental conditions, effects of
Triticum
Yield and canopy temperature of wheat under drought-stress 289
Yield and source/sink relation of spring wheat 297
Variety trials
Nutrients in sweet potatoes in varying plant spacings 17
Dynamics of root: leaf relationships affected by population in sunflower 45
Effects of seed size, cotyledon removal and nitrogen stress on growth of sunflower 59
Effects of nitrogen, irrigation and genotype on canopy and yield of an intercrop/weed mixture 83
Photoperiod response of flowering in *Phaseolus* genotypes 113
Genotypic variation and influence of temperature on cotton 129
Improvement of maize yield under moisture-deficits 227
Growth and development of sorghum cultivars in tropical and sub-tropical environments 267
Yield and canopy temperature of wheat under drought-stress 289
Yield and source/sink relations of spring wheat 297
Vigna
Effects of leaf-harvesting on yield 27
Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
Water regime, effects of
Nitrogen accumulation and partitioning by legumes in response to water deficits 33
Effects of nitrogen, irrigation and genotype on yield of an intercrop/weed mixture 83
Radiation interception and growth of irrigated and droughted Solanum 101
Effects of field slope and irrigation on legumes on a waterlogging-prone vertisol 165
Improvement of maize yield under moisture-deficits 227
Yield and canopy temperature of wheat under drought-stress 289
Winter planting as a means of drought escape in sunflower 307
Wheat, *see Triticum*
Zea
Corn and Corn Improvement (book review) 161
Improvement of maize yield under moisture-deficits 227
Zornia
^{15}N-based estimation of N fixation by legumes at two levels of P:K 181
